

# CSWC Operational Period Summary

## 0600 June 27 2014 to 1800 June 27 2014

Cal OES Headquarters

# **SITUATION SUMMARY**

## **Cathedral City, Residential Burn (New)**

- Cathedral City Fire Department, along with Federal and State Fire Agencies, will burn down a residence in Cathedral City tonight, 06/27/14. The residence is located within the Desert Gates Mobile Estates and was determined to contain bomb making materials.
- Approximately 63 residents are to be evacuated today and are expected to be allowed to return on 06/28/14, provided there are no complications.
- A shelter will be established this afternoon at Cathedral City High School.
- Riverside County is working with Public Health to address the healthcare needs of the evacuees and with Animal Control to provide for pet care needs.
- Per the Cal OES SDO, Riverside County will be forwarding a Local Disaster Proclamation from Cathedral City.
- A Cal OES Fire Assistant Chief is assigned to the incident.
- The Cal OES Fire Duty Officer, Law Duty Officer, and Southern Region Duty Officer will continue to monitor the situation.

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought
- Kern County has submitted a reaffirmation to their drought proclamation.

# **SITUATION SUMMARY**

## **San Luis Obispo County Accidental Emergency Alert (New /Final)**

Per SLO OES, an EAS siren inadvertently activated and while working with local media to inform the public of the non emergency, a Wireless Emergency Alert (WEA) message "Civil Emergency in this area until 4:10PM PDT Prepare for Action" was inadvertently sent to cell phones. A second message quickly followed with "An early warning system siren has sounded in error. There is no emergency," . PG&E was able to turn off the siren.

# FIRE WEATHER

## NORTHERN CALIFORNIA:

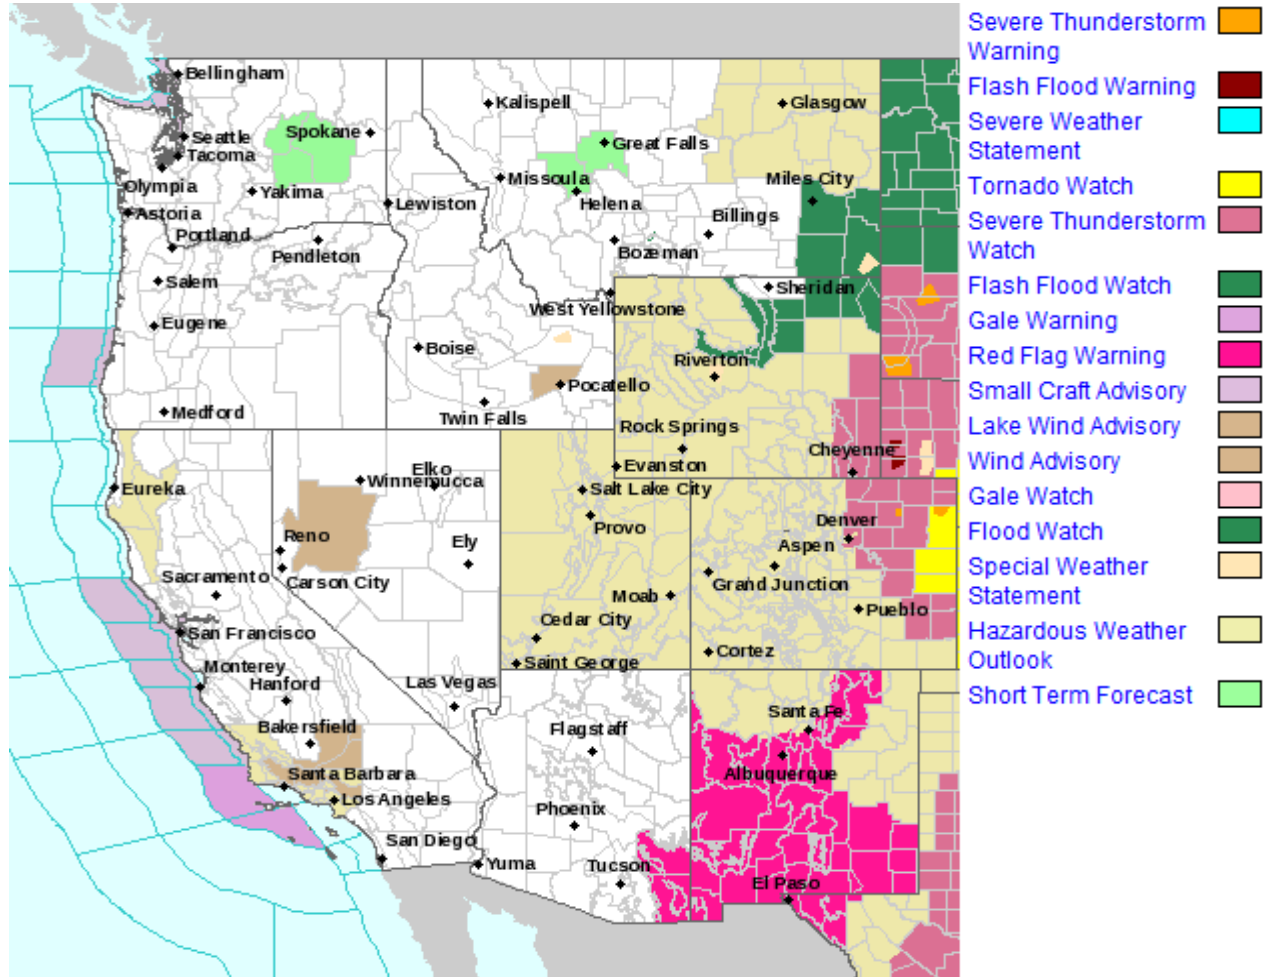

The last in a series of low pressure troughs affecting Northern California this week is producing light rain showers in far Northwest California and plenty of cloud cover elsewhere. Rainfall totals will generally be 0.10 inches or less in the few areas that receive rain today. By this afternoon clouds will decrease across the region and the added sunshine will lead to warmer and drier conditions than over the past two days. High pressure will begin building over the region this weekend. By Sunday afternoon temperatures will be 5-7 degrees above normal and Relative Humidity (RH) will drop into the 8-16% range in inland areas. These conditions will be enhanced from the lower western Sierra slopes to the coastal mountains by north-northeast winds gusting to 25 mph. This trend, including the north-northeast downslope winds in and around the Sacramento Valley, will continue through midday Tuesday. A Pacific low pressure trough will approach the region beginning late Tuesday. The trough will produce cooler temperatures and increasing south-southwest winds. Areas along and east of the Cascade-Sierra crest will see winds gusting to 30-35 mph with RH remaining in the 7-15% range beginning Wednesday. There is also a slight chance of afternoon showers or thunderstorms near the Oregon state line.

# **FIRE WEATHER**

## **SOUTHERN CALIFORNIA:**

A strong ridge of high pressure building into California from the southwest will bring a warming and drying trend to the region through Tuesday. Widespread triple digit heat will occur in the valleys and minimum humidity will drop mainly into the teens away from the coast Monday and Tuesday. Westerly afternoon winds of 15 to 25 mph with gusts to 40 mph will surface across the desert passes through Saturday. The marine layer will shrink with night and morning low clouds and fog moving only over the coastal areas by Sunday. The ridge will weaken a little starting Wednesday bringing slight cooling to the region. Winds will be fairly light across the area Sunday through the middle of next week.

# **CAL OES ACTIVATIONS**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

## **Cal EOC Incident – 2014 Drought**

### **Situational Summary**

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

**\*\*As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.\***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

## Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

# CAL OES MISSIONS

## New Cal OES Missions

- **2014-LAW-3963**, Riverside County Sheriff is requesting 50 Type-2 ground searchers to assist in searching for a young autistic 19 year old that has been missing since early Friday, 6/27/14. The Cal OES Law Duty Officer is coordinating resources. While coordinating resources the subject was located alive and well. **Mission cancelled.**
- **2014-LAW-3961**, On behalf of Fairfield Police Department, Solano County Sheriff is requesting one Human Remains Detection (HRD) K9 to assist in a 30 year cold case homicide. The Cal OES Law Duty Officer is coordinating resources.

# CAL OES MISSIONS

## Ongoing Cal OES Missions

- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
